Introduction

Congratulations on your purchase of the TalkAbout™ T900 Personal Interactive Communicator. Whether receiving or sending messages, the TalkAbout T900 Personal Interactive Communicator can become a vital part of your business and personal life and change the way you communicate with family, friends, and business associates. This guide explains how to use your new communicator and provides helpful suggestions for first-time, as well as experienced users.

A detachable quick-reference card is included for your convenience.
Effective Use of Your Communicator

With this communicator, you can send wireless messages to internet e-mail addresses and other communicator devices, yet it is small enough to comfortably wear on your belt or fit in a pocket. By supplying business associates, family members, and friends with your wireless address information, you can be contacted whenever needed.

Safety and General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION.
READ THIS INFORMATION BEFORE USING YOUR PERSONAL INTERACTIVE COMMUNICATOR.
The information provided in this document supersedes the general safety information contained in user guides published prior to July 2000. For information regarding radio use in a hazardous atmosphere please refer to the Factory Mutual (FM) Approval Manual Supplement or Instruction Card, which is included with radio models that offer this capability.

RF Operational Characteristics
Your Personal Interactive Communicator contains a transmitter and a receiver. When it is ON, it receives and transmits radio frequency (RF) energy. The Personal Interactive Communicator operates in the frequency range of 896 MHz to 941 MHz and employs digital modulation techniques.
When you communicate with your Personal Interactive Communicator, the output power level is 1.0 watt.
Exposure to Radio Frequency Energy

Your Motorola Personal Interactive Communicator is designed to comply with the following national and international standards and guidelines regarding exposure of human beings to radio frequency electromagnetic energy:

- United States Federal Communications Commission, Code of Federal Regulations; 47 CFR part 2 sub-part J.
- Institute of Electrical and Electronic Engineers (IEEE) C95.1-1999 Edition.
Safety and General Information

* Australian Communications Authority Radiocommunications (Electromagnetic Radiation - Human Exposure) Standard 1999 (applicable to wireless phones only).

To assure optimal Personal Interactive Communicator performance and make sure human exposure to radio frequency electromagnetic energy is within the guidelines set forth in the above standards, always adhere to the following procedures:

**Portable Personal Interactive Communicator**

**Operation and EME Exposure**

**Body-worn Operation**

To maintain compliance with FCC/Health Canada RF exposure guidelines, if you wear a Personal Interactive Communicator on your body when transmitting, always place the Personal Interactive Communicator in a Motorola supplied or approved clip, holder, holster, case, or body harness. Use of non-Motorola-approved accessories may exceed FCC/Health Canada RF exposure guidelines. If you do not use a body-
worn accessory, ensure the device is at least one inch (2.5 cm) from your body when transmitting.

**Approved Accessories**
For a list of approved Motorola accessories call 1-800-422-4210 or visit our website at www.mot.com.

**Electromagnetic Interference/Compatibility**

*NOTE:* Nearly every electronic device is susceptible to electromagnetic interference (EMI) if inadequately shielded, designed or otherwise configured for electromagnetic compatibility.

- **FACILITIES**
  To avoid electromagnetic interference and/or compatibility conflicts, turn off your Personal Interactive Communicator in any facility where posted notices instruct you to do so. Hospitals or health care facilities may be using equipment that is sensitive to external RF energy.

- **AIRCRAFT**
  When instructed to do so, turn off your Personal Interactive Communicator when on board an aircraft. Any use of a
Personal Interactive Communicator must be in accordance with applicable regulations per airline crew instructions.

- **MEDICAL DEVICES**
  
  **Pacemakers**
  
  The Advanced Medical Technology Association recommends that a minimum separation of 6 inches (15 centimeters) be maintained between a handheld wireless Personal Interactive Communicator and a pacemaker. These recommendations are consistent with the independent research by, and recommendations of, the United States Food and Drug Administration.

  Persons with pacemakers should:
  
  - **ALWAYS** keep the Personal Interactive Communicator more than six inches (15 centimeters) from their pacemaker when the Personal Interactive Communicator is turned ON.
  - **not** carry the Personal Interactive Communicator in the breast pocket.
  - use the ear opposite the pacemaker to minimize the potential for interference.
turn the Personal Interactive Communicator OFF immediately if you have any reason to suspect that interference is taking place.

**Hearing Aids**
Some digital wireless Personal Interactive Communicators may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer to discuss alternatives.

**Other Medical Devices**
If you use any other personal medical device, consult the manufacturer of your device to determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining this information.
Safety and General

USE WHILE DRIVING

Check the laws and regulations on the use of a Personal Interactive Communicator in the area where you drive. Always obey them.

When using your Personal Interactive Communicator while driving, please:

• give full attention to driving and to the road.
• use hands-free operation, if available.
• pull off the road and park before making or answering a call if driving conditions so require.

Operational Warnings

FOR VEHICLES WITH AN AIR BAG

Do not place a portable Personal Interactive Communicator in the area over an air bag or in the air bag deployment area.

Air bags inflate with great force. If a portable Personal Interactive Communicator is placed in the air bag deployment area and the air bag inflates, the Personal Interactive Communicator may be propelled with great force and cause serious injury to occupants of the vehicle.
POTENTIALLY EXPLOSIVE ATMOSPHERES

Turn off your Personal Interactive Communicator prior to entering any area with a potentially explosive atmosphere, unless it is a Personal Interactive Communicator type especially qualified for use in such areas as "Intrinsically Safe". Do not remove, install, or charge batteries in such areas. Sparks in a potentially explosive atmosphere can cause an explosion or fire resulting in bodily injury or even death.

NOTE: The areas with potentially explosive atmospheres referred to above include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust or metal powders, and any other area where you would normally be advised to turn off your vehicle engine. Areas with potentially explosive atmospheres are often but not always posted.
• **BLASTING CAPS AND AREAS**
  To avoid possible interference with blasting operations, turn off your Personal Interactive Communicator when you are near electrical blasting caps, in a blasting area, or in areas posted: "Turn off two-way radio". Obey all signs and instructions.

**Operational Cautions**

• **BATTERIES**
  All batteries can cause property damage and/or bodily injury such as burns if a conductive material such as jewelry, keys, or beaded chains touch exposed terminals. The conductive material may complete an electrical circuit (short circuit) and become quite hot. Exercise care in handling any charged battery, particularly when placing it inside a pocket, purse, or other container with metal objects.
Your communicator uses one AA-size alkaline battery (do not use carbon-zinc batteries), which also recharges the internal transmit power source.

Two AA-size batteries are included with your communicator. One is installed. Check the battery gauge in the Vital Signs menu and replace the installed battery as needed.

If \( \text{ } \) is displayed on the Status screen, the AA-battery is low. If \( \text{ } \) begins flashing, your communicator is about to shut down due to low battery power. While \( \text{ } \) is flashing, you cannot receive or transmit messages, but you can still read unread messages and your address book entries.

**Note:** This product contains a Nickel-Cadmium (NiCd) rechargeable battery that must be recycled or disposed of properly. Recycling facilities may not be available in all areas.
Installing/Replacing the Battery

Caution! You must match the (+) and (-) polarity markings. If you insert the battery backwards, your pager settings (time, date, etc.) will be erased.

Note: If you replaced a dead battery, wait a few hours before using your communicator to ensure proper operation.
Getting Started

Control Buttons

Getting Started

Turning On Your Communicator

Ensure that a fresh battery is properly installed as described in “Installing/Replacing the Battery” on page 15.

Open the flip and press any key to turn your communicator on. The communicator emits a 4-second power-up alert, and displays the Status screen.

Press U, {, w, x, y, or z to display the Main menu.
• If you do not select a menu item, the communicator goes into standby mode.
• If you have one or more unread messages, 1 flashes on the Standby screen.
Turning Off Your Communicator
You should turn off your communicator to save battery power. The communicator receives any stored messages, once the unit is turned back on in the coverage area.

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>✖ or ✗</td>
<td>Power Off</td>
<td>✗ ENTER</td>
</tr>
<tr>
<td>✖ or ✗</td>
<td>Yes</td>
<td>✗ ENTER</td>
</tr>
</tbody>
</table>

Setting Transmitter Mode
When the transmitter is turned off, the communicator cannot send messages or replies, but it can receive messages.

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>✖ or ✗</td>
<td>Preferences</td>
<td>✗ ENTER</td>
</tr>
<tr>
<td>✖ or ✗</td>
<td>Transmitter Off</td>
<td>✗ ENTER</td>
</tr>
<tr>
<td>✖ or ✗</td>
<td>Yes or No</td>
<td>✗ ENTER</td>
</tr>
</tbody>
</table>
Messaging Service Instructions

To begin messaging service, contact your service provider for instructions. The phone number of the messaging service can be found in the literature provided by the service provider.

Sending a Test Message to Yourself

After you activate your service, you should test your communicator and service by sending a message to yourself. Use the telephone number, web site, or e-mail address (and a wireless address) provided by your service provider. If you are using a phone to send a word message, an operator will help; otherwise, enter a numeric message or type one and send it. While waiting for the message to reach your communicator, refer to “Reading Messages” on page 43. If your communicator does not receive the message within a few minutes, contact your service provider.

After you have tested the communicator, read the rest of this guide to learn about other features.
**Getting Started**

**Backlight**
In low-light conditions, press and hold the backlight button to turn on the backlight. The backlight remains illuminated until the communicator times out and returns to the Standby screen. To manually turn the backlight off, press and hold the backlight button.

**Setting Up Your Communicator**
This section explains how to set the time and date, alarm time, alert mode, News/Info InBox alerts, and other features.

**Using the Main Menu**
Use the Main menu to access the following features:

- MailBox
- i News/Info InBox
- Info-On-Demand (if available)
- Address Book
- Personal Folder
- News/Info Folder
Getting Started

- Delete Messages
- Preferences
- Vital Signs
- Power Off the Communicator

**Accessing the Communicator Features from the Main Menu**

From the Standby screen, press any key (the Status screen displays momentarily). Or press `U`, `{`, `w`, `x`, `y`, or `z` to go directly to the Main Menu.

<table>
<thead>
<tr>
<th>Press</th>
<th>To ...</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>
Private Time

Reminder Alert Types

- Audible - a chirp.
- Vibrate - a short vibration.
- Chirp and vibrate - a chirp followed by a 1-second vibration.
- Vibrate and beep - a 2-second vibration followed by a beep.

Private Time

Private Time mode lets you specify a time period during which the communicator operates without an audible or vibrate alert.
Quiet Mode

Setting Private Time

Press To Display Then Press

- or Preferences
- or Set Private Time
- or (Private Time activated)

- (Private Time deactivated)

To set On time (when it starts) and Off time (when it ends). See “Setting the Time and Date” on page 27 for more information on setting times.

Quiet Mode

When turned on, Quiet Mode temporarily changes all audible alerts to vibrator alerts. Turn the mode off to reinstate the audible alerts.
Setting the Quiet Mode

Press To Display Then Press

or Preferences
or Quiet Mode
or On

Note: When you turn on the Quiet Mode, a \[ \] flashes on the Status screen to remind you.
Addresses

Your Address Book can store data for up to 250 people. Each entry can include a name; wireless and e-mail addresses; home, work, pager, mobile phone, and fax/other numbers; and notes.

Creating an Address Book Entry

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>⌘ or ⌘</td>
<td>Address Book</td>
<td>⌘ ENTER</td>

<tr>
<td>⌘ or ⌘</td>
<td>or</td>
<td>⌘ ENTER</td>
</tr>
<tr>
<td>⌘ or ⌘</td>
<td>Add Addresses</td>
<td>⌘ ENTER</td>
</tr>
<tr>
<td>⌘ or ⌘</td>
<td>Desired address type</td>
<td>⌘ ENTER</td>
</tr>
</tbody>
</table>

Keyboard Desired address
Composing a Message

Press To Display Then Press

- or - Send Message
- or - Write Message

Keyboard Your message

Note: The communicator returns to the Send Message menu, and displays a checkmark in the Write Message selection.

Sending a Message

To send a message you need a selected address, and a composed message. Which one is performed first, doesn’t matter. Once you have both, do the following:

Press To Display Then Press

- or - Send Message

MESSAGE TRANSMITTING
MailBox

The MailBox receives incoming messages transmitted to your communicator. The MailBox allows you to read, save, respond, forward, and delete messages. It provides a transmission status log for messages sent and acts as a holding area for unsent messages, which are categorized into the following types:

- Sending in Progress (Flashing)
- ✔ Sent Successfully
- ✗ Send Message Failed
- Send Message Failed Due to NiCd Charging
Previewing and Reading Messages

- When you receive a personal or information service message, the Status screen is displayed and an alert is given according to your settings. A flashing ☐ (MailBox) or ☐ (News/Info) indicates which type of message has been received.

- To stop an alert, press the side button or open the flip. The ☐ on the Standby screen and ☐ on the Main menu flash until you have read all received MailBox or News/Info service messages.

  **Note:** If reminder alerts is active, the communicator periodically generates the selected alert to remind you of any unread MailBox messages.

- When the main message memory is full, MEMORY FULL is displayed on the Status screen. When memory is full, the oldest messages (read first, then unread) are automatically deleted to make room for new messages.
- If turned on, the third line of the Status screen displays text messages that indicate carrier-specific service modes. Refer to your service provider literature.
- If programmed ☢️ displays whenever you are out of your coverage area. Upon returning to your coverage area, ☢️ no longer displays on the Status screen.
- If your communicator is configured to save messages received with errors, UPDATED is displayed at the beginning of a message, which indicates the message has been retransmitted to correct previously received errors.
**Previewing Messages**

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>📩 or 📨</td>
<td>MailBox</td>
<td>↓ ENTER</td>
</tr>
<tr>

Resending Messages
This option is available only for messages in your OutBox that were not successfully transmitted. If the message doesn’t show x or ✘ to the left, its option menu will not display this option.

Forwarding Messages
You can append text to, and then forward any message.
Deleting Messages
Press \( \uparrow \) to immediately delete a read message, whether it is only highlighted in a list or open while you are reading it.
If you try to delete an unread message from a list, a confirmation message displays. You can select ☑ Yes and continue or select ☑ No and cancel the deletion.

You can also delete messages as follows:
- Using the Message Options Menu
- Deleting All Read Messages
- Deleting Messages from an InBox

**Using the Message Options Menu**
The delete option deletes the current or highlighted message.

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>U or y</td>
<td>Message Options menu</td>
<td>MENU/EXIT</td>
</tr>
<tr>
<td>☐ or ☑</td>
<td>☐ Delete Message</td>
<td>☑ ENTER</td>
</tr>
</tbody>
</table>

See “Working with the Message Options Menu” on page 44 for more information.
Deleting All Read Messages
Perform this option from the Main Menu. See “Using the Main Menu” on page 23. Messages in your Personal Folder and News/Info Folder are not affected by this function.

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>✔️ or ☐</td>
<td>☞ Delete Messages</td>
<td>ENTER</td>
</tr>
<tr>
<td>✔️ or ☐</td>
<td>☐ Yes</td>
<td>ENTER</td>
</tr>
</tbody>
</table>

Deleting Messages from an Inbox
Caution: If you select ☞ Delete All Messages, both Read and Unread messages are deleted.
Your communicator provides 25 messaging emoticons you can add to all your messages. To insert a smiley face, for example, type :-) and the pager will display 😊 instead. Please refer to the Quick Reference Card at the end of this manual for a list of all the available emoticons and their corresponding triads.
Advanced Messaging

Using Info-On-Demand

With Info-On-Demand, you can request information such as News, Sports, and Stocks. This information is sent to your communicator as a MailBox message.

<table>
<thead>
<tr>

</tbody>
</table>
Alarms

The alarm can be set for a specific time and date, or it can be used as a daily alarm. When an alarm is set, is displayed on the Status screen. Press any key to silence an alarm.

Setting the Alarm

Press | To Display | Then Press
---|---|---
 or | Preferences | 
 or | Set Alarm | 
 or | | 

 to set time and date fields

 Desired fields and settings See “Setting the Time and Date” on page 27 for more information on setting time and date.
Note: To set a Daily Alarm, increment the month field past 12 (or day field past 31) to automatically display --/--.--.--.

Folders

The MailBox contains your InBox, OutBox and Drafts Folder. In all of these folders you can preview, read, delete, and send these messages. See “Messages” on page 36 for more information.

Accessing the MailBox Folders

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>MailBox</td>
<td># ENTER</td>
</tr>
<tr>
<td>2</td>
<td>InBox</td>
<td># ENTER</td>
</tr>
<tr>
<td>or</td>
<td>OutBox</td>
<td></td>
</tr>
<tr>
<td>or</td>
<td>Drafts Folder</td>
<td></td>
</tr>
</tbody>
</table>
Your InBox
All incoming personal messages are saved into the MailBox InBox.

Your OutBox
All outgoing personal messages are saved into the MailBox OutBox.

Your Drafts Folder
All outgoing personal messages that have not been sent are automatically saved into the MailBox Drafts Folder.
**Using Your Personal Folder**

Access your Personal Folder from the Main Menu. Use it to save personal messages and protect them from the \( \text{Delete Messages} \) option and from automatic deletion when memory is full. In this folder you can preview, read, delete, and send messages. See "Messages" on page 36 for more information.

**Moving a Message to Your Personal Folder**

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td>( \text{or} )</td>
<td>Highlight the message in its original Folder/InBox</td>
<td></td>
</tr>
<tr>
<td>( \text{or} )</td>
<td>Move to Folder</td>
<td></td>
</tr>
</tbody>
</table>

(And enter)
Using Your News/Info Folder

Use your News/Info Folder to save News/Info messages and protect them from the Delete Messages option and from automatic deletion when memory is full. In this folder you can preview, read, delete, and forward messages. See “Messages” on page 36 for more information.

Moving a Message to Your News/Info Folder

<table>
<thead>
<tr>
<th>Press</th>
<th>To Display</th>
<th>Then Press</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>News/Info InBox</td>
<td>Press ENTER</td>
</tr>
<tr>
<td></td>
<td>Highlight the message</td>
<td>Press ENTER</td>
</tr>
<tr>
<td></td>
<td>Move to Folder</td>
<td>Press ENTER</td>
</tr>
</tbody>
</table>
InBoxes

There are two inboxes for your communicator: the MailBox and the News/Info InBox.

Using Your MailBox InBox
Please see “Messages” on page 36 for detailed information on how to use the MailBox.

Using Your News/Info InBox
When your communicator receives information service messages, they go to the News/Info InBox. To read the messages in this inbox, refer to “Previewing and Reading Messages” from pages 40 through 44. You can also create Sub-InBoxes to organize your messages by topic. You can set the history for each Sub-InBox, move them within the list, and delete them.
Creating a Sub-InBox
Within the News/Info InBox, you can create up to 16 Sub-InBoxes to organize the incoming messages. A message under 04: *Sports Update*, for example, creates the Sub-InBox, *Sports Update*. Once created, the new InBox will receive all the messages that arrive under that topic.

Press | To Display | Then Press
--- | --- | ---
| | **News/Info InBox** | **ENTER**
| | Highlight the message with the same name as the InBox you wish to create | **ENTER**
| | **Create InBox** | **ENTER**
Setting the InBox History

After creating a new Sub-InBox, you can specify how many messages it will store for you. This is the InBox History. You can specify up to eight history messages to be stored. If you only wish to see the latest message, set it to "No History." When the Sub-InBox has no history, every new message overwrites the previous one.

Press  To Display  Then Press

or  i News/Info InBox
or  Highlight the desired Sub-InBox
or  Set InBox History
or  Highlight the desired number

Press ENTER

Press ENTER

Motorola MyMail Desktop and Desktop Plus are computer-based software applications that act like a remote control for your personal computer (PC) email, giving you the freedom to manage your messages from any location. Motorola MyMail Desktop and Desktop Plus eliminate the need for separate PC and wireless email addresses. They allow you to compose, read, reply to, and forward email messages as if they were sent from your PC email application. Using one email address, you can receive email messages both in your PC mailbox and on your wireless device.

This feature is dependent on the purchase of a separate software application. Please refer to www.motorola.com.

Once you purchase the software and install it on your PC, the following steps activate MyMail in your TalkAbout T900 pager.
Setting up MyMail

Press To Display Then Press

Press or to Preferences
Press or to MyMail Options
Press or to MyMail Address

Keyboard Type in your PC email address

Press or to MyMail Mode

Press or to Off

MyMail is now accessible from the Main Menu.

Note: For more information and access to the MyMail Desktop or Desktop Plus for the T900 User Guide, please go to: www.motorola.com/mymail. Under MyMail Desktop or MyMail Desktop Plus, click on T900 2way, then scroll down to Support, and click on View the User Manual.
Use and Care

- Clean with a soft cloth dampened with soap and water.
- Do not immerse in water.
- Do not use alcohol or other cleaning solutions.
- Do not expose to excessive heat...
- ...or extreme shock...
- ...or moisture.

FCC Compliance
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in
accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Limited Warranty
Limited Warranty for Motorola Personal Communications Products and Accessories Purchased in the United States and Canada

I. What this Warranty Covers
Defects in materials and workmanship in the following new “Products” manufactured, sold or certified by Motorola, with which this limited warranty is included in/on the package: (a) wireless cellular telephones, pagers and two-way radios that operate via “Personal Radio Service” (such as Family Radio Service and General Mobile Radio Service), together with software imbedded in any of these products, and (b) subject to the following exceptions, accessories or software sold for use with these products.

- Battery Exception. This limited warranty extends only to batteries in which the fully-charged capacity falls below 80% of rated capacity and batteries that leak;
Limited Warranty

II. What the Period of Coverage Is

Subject to the following exceptions, one year from the date the Products are purchased by the first end-user:

- **Software Exceptions.** This limited warranty extends only physical defects in the media (such as CD-ROM) that tangibly embodies each copy of any software sold and/or certified by Motorola for use with Products. Software that is not tangibly embodied in media and that is purchased separately from Products (such as software that is downloaded from the internet) comes “as is” and without warranty.

- **90-Day Warranty Exception.** The warranty is for 90 days for:
  (a) any software tangibly embodied in media or (b) any accessories for two-way radios that are covered by this warranty, as described in Section I, above.

- **Limited Lifetime Warranty Exception.** The warranty is a limited lifetime warranty for the lifetime of ownership by the first end-user of the following products, only: (a) decorative
covers, including bezel, PhoneWrap™ or case (any model); and (b) ear buds and boom headsets that transmit mono sound through a wire connection (this does not include ear buds or boom headsets that either transmit stereo sound or that are wireless, or both).

- **Repair / Replacement Exception.** The warranty is for the balance of the original warranty or for 90 days from the date returned and delivered to the first end-user, whichever is longer.

**III. Who is Covered**
This warranty extends to you only if you are the first end-user purchaser.

**IV. What We Will Do to Correct Warranty Problems**
At no charge to you, we have the option to repair or replace the Products that do not conform to the warranty, or to refund the
Limited Warranty

Products' purchase price. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products or parts. No software updates are provided.

V. How to Get Warranty Service

PLEASE CALL US – DO NOT SHIP:

USA          Canada
Cellular 1-800-331-6456    All Products 1-800-461-4575
Paging 1-800-548-9954       TTY (Text Telephone)
FRS Radios 1-800-353-2729   1-888-390-6456
TTY (Text Telephone)  
1-888-390-6456

Accessories and software -- call the number designated for the product with which they are used.

You will receive instructions on how to ship the Products to Motorola or our designated resource. If instructed to ship the Products, you must ship them with freight, duties and insurance
Limited Warranty

prepaid. Regardless of where you are instructed to return the Products, you must include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider (if this Product requires subscription service); (d) the name and location of the installation facility (if applicable) and, most importantly; (e) your address and telephone number. If requested, you must also return all detachable parts such as antennas, batteries and chargers. RETAIN YOUR ORIGINAL PROOF OF PURCHASE. For Products we ask you ship to us, we will ship repaired or replacement Products at our expense for the freight and insurance, but at your expense for any duties. If additional information is needed, please contact us at the telephone number listed above.

VI. What this Warranty Does Not Cover

- Products that are operated in combination with ancillary or peripheral equipment or software not furnished or otherwise
Limited Warranty

76

certified by Motorola for use with the Products ("ancillary equipment"), or any damage to the Products or ancillary equipment as a result of such use. Among other things, “ancillary equipment” includes batteries, chargers, adaptors, and power supplies not manufactured or supplied by Motorola. Any of these voids the warranty.

- Someone other than Motorola (or its authorized service centers) tests, adjusts, installs, maintains, alters, modifies or services the Products in any way. Any of these voids the warranty.

- Rechargeable batteries that: (a) are charged by other than the Motorola-approved battery charger specified for charging such batteries; (b) have any broken seals or show evidence of tampering; (c) are used in equipment other than the Product for which they are specified; or (d) are charged and stored at temperatures greater than 60 degrees centigrade. Any of these voids the warranty.
• Products that have: (a) serial numbers or date tags that have been removed, altered or obliterated; (b) board serial numbers that do not match each other, or board serial numbers that do not match the housing; or (c) nonconforming or non-Motorola housings or parts. Any of these voids the warranty.
• Defects or damage that result from: (a) use of the Products in a manner that is not normal or customary; (b) improper operation or misuse; (c) accident or neglect such as dropping the Products onto hard surfaces; (d) contact with water, rain, extreme humidity or heavy perspiration; (e) contact with sand, dirt or the like; or (f) contact with extreme heat, or spills of food or liquid.
• Physical damage to the surface of the Products, including scratches, cracks or other damage to a display screen, lens or other externally exposed parts.
Failure of Products that is due primarily to any communication service or signal you may subscribe to or use with the Products.

- Coil cords that are stretched or that have any broken modular tabs.
- Leased Products.

Flat-rate repair rates may apply to Products not covered by this warranty. To obtain information about Products needing repairs that are not covered by this warranty, please call the telephone number previously listed. We will provide information on repair availability, rates, methods of payment, where to send the Products, etc.

VII. Some Other Limitations

This is Motorola's complete warranty for the Products, and states your exclusive remedies. This warranty is given in lieu of all other
Limited Warranty

express warranties. Implied warranties, including without
limitation, the implied warranties of merchantability and fitness
for a particular purpose, are given only if specifically required by
applicable law. Otherwise, they are specifically excluded.
No warranty is made as to coverage, availability, or grade of
service provided by the Products, whether through a service
provider or otherwise.
No warranty is made that the software will meet your
requirements or will work in combination with any hardware or
applications software products provided by third parties, that the
operation of the software products will be uninterrupted or error
free, or that all defects in the software products will be corrected.
In no event shall Motorola be liable, whether in contract or tort
(including negligence) for damages in excess of the purchase
price of the Product, or for any indirect, incidental, special or
consequential damages of any kind, or loss of revenue or profits,
loss of business, loss of information or data, or other financial
loss arising out of or in connection with the ability or inability to use the Products, to the full extent these damages may be disclaimed by law.

**VIII. Patent and Software Provisions**

At Motorola’s expense, we will defend you, and pay costs and damages that may be finally awarded against you, to the extent that a lawsuit is based on a claim that the Products directly infringe a United States patent. Our obligation is conditioned on: (a) you notifying us promptly in writing when you receive notice of the claim; (b) you giving us sole control of the defense of the suit and all negotiations for its settlement or compromise; and (c) should the Products become, or in Motorola’s opinion be likely to become, the subject of a claim of infringement of a United States patent, you permit us, at our option and expense, either to: procure for you the right to continue using the Products; replace or modify them so that they become non-infringing; or grant you a credit for such Products, as depreciated, and accept their
Limited Warranty

return. The depreciation will be an equal amount per year over the lifetime of the Products, as established by Motorola. Motorola will have no liability to you with respect to any claim of patent infringement that is based upon the combination of the Products or parts furnished under this limited warranty with ancillary equipment, as defined in VI., above. 

This is Motorola's entire liability with respect to infringement of patents by the Products.

IX. State Law and Other Jurisdiction Rights

Some states and other jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which vary from jurisdiction to jurisdiction.

Export Law and Patents

Export Law Assurances
This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Software Copyright Notice
The Motorola products described in this manual may include copyrighted Motorola and third party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third party software providers certain exclusive rights for copyrighted
software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in the Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of the Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.
